

**President Garnett S. Stokes, Provost Chaouki Abdallah,  
Chancellor for Health Sciences Paul B. Roth, MD  
and the UNM Veterans Resource Center  
invite you to**

**A Training Event on Serving Student Veterans  
To RSVP or for more information: [presrsvp@unm.edu](mailto:presrsvp@unm.edu)  
Please RSVP for session 1 or 1 & 2 by July 16**

**Session 1: Serving Those Who Served: Foundations for Working with Veterans  
Introduction by Dr. James Goff, NMVAHCS Chief of Staff and retired Lieutenant Colonel  
New Mexico VA Health Care System**

**Monday, July 23  
8:30 am – 4:30 pm  
Student Union Building, Lobo A & B**

All interested faculty and staff are welcome to attend this dynamic training from our VA partners. You will learn from a variety of subject matter experts on topics such as military culture, recognizing PTSD, traumatic brain injury, potential implications for suicide prevention, and community resources for veterans. This day of training provides participants an overview and context of potential factors that impact Veterans in their transition to civilian & student life. This 1-day training is ideal for any staff member who anticipates working with student veterans in any capacity.

**Session 2: Cognitive Processing Therapy (CPT) 2-Day Workshop\*  
Madeleine Goodkind, PhD  
New Mexico VA Health Care System**

**Tuesday and Wednesday, July 24 & 25  
8:30 am – 4:30 pm  
Roberts Room, Scholes Hall**

This 2-day workshop offers in-depth, specialized training in Cognitive Processing Therapy (CPT), an evidence-based treatment modality for PTSD. CPT is a 12-session manualized therapy used by clinicians to help people recover from PTSD and related conditions. CPT is considered a best practice for the treatment of PTSD and is endorsed by the VA, DoD, and International Society of Traumatic Stress Studies. Participants will learn how to deliver this treatment modality over an intensive two-day training that includes a review of the research base, session-by-session instructions, and role plays. This workshop is designed for qualified clinicians who anticipate delivering treatment to individuals with PTSD in the course of their work. Space is limited to 15 participants.

\*Please note that Session 1 is a prerequisite for attending the 2-day workshop.  
Continuing Education Units have been approved by the American Psychological Association for all three days.

Please see accompanying disclosures.
